Malignant and Terribly Fatal Conflicting Reports Regarding the A Terrible Thunder Storm Passes A Plot to Assassinate Presider

Corrses of Persian Pligrims by Marines Land at Scoul and Pro- Great Damage Done to Property Thousands Will Go Through

BANGOR, MAINE. SATURDAY. JULY 28, 1894.

WASHINGTON, July 27. The United Sintes consul at Bagdad, reports to the State Department under date of June 20th, that a malignant and very fatal fewer has followed the great flood of the past spring among the fellahs or tillers of the soil, who, having lost all their crops, will soon starve if they survive the fever Begrywhere there are stagnant pools of green, sinny water, emitting a terrible

steach.

A cravan of Persian pilgrims bound for Kerkeiali and Nedjef Holy Shrices, venerated by the Shiah sect of Mohanmedans, was just arriving, and many of the mules were loaded with coffins containing corpuses that had been dead for months

The cumpgration of defunct Persians has not been recovered and near theorem.

TERRIBLE CONDITION OF AFFAIRS

Fever at Bagdad,

The manigration of defunct Persians has use them reopened and many thousand couples will pass through Hagdad this summer for their fluit resting place. It is a source of both revenue and postilence During the recent inundarion, most of the cemeteries, which completely surround Bagdad, were under water, and the dead had to be buried wherever a spot of elevated ground could be found outside the walf Graves were again opined at night by robbers for the sale of the clothes the corpses had on. The graves of the pour are always thus plandared that this is a means of spreading contagion will be readily understood. But the furr of having the graves plundared, led more than at other times, to snieptknow further them at other times, to snieptknows interments in the collars of dwelling houses, a common practice during coldenies.

strikers of the Glen Campbell minus and
a number of deputy sherifs who were
pu guard. It is reported that several
persons were seriously jujured. PARDON GRANTER

BOSTON, July 27 Gov. Greenhalge has just pardoned Samuel Scott Lanning, who is serving a three years's sentence at the State prison for askullt with intent to root. It has been proved to the satisfac-tion of the executive that Lanning was innocent. He had served ten months.

ON THE SAME THACK

(we Engines Demolished by Collisins —Too Men Milled and Several Enjured Lafaverte, Iud., July 27. A collision occurred on the Wabash railroad, hear Wea, four miles south of this city, at 12 A M. Jast alght, and two men were killed, and several slightly wounded A freight train, with Engineer Clark pulled out of the city on time, west bound. At Wea he noticed that his train had broken in two. He addenseded the Cont. and of n two. He sidetracked the front end at Wea, and started back after the rear end

in two. He sidetracked the front end at Wea, and started back after the rear end An eccentric in the engine broke, and he could not go back. A brakeman was sont to West Point to telegraph to La Fuyette that the engine was disabled and could not be moved. After he had gone Ctark repaired his engine and started back after the lost cars.

The operator at West Point telegraphed the brakeman's message to this city, and the despatcher sent out the next freight train. This train picked up the lost exciton, and ran abend, understanding that the other engine was dead at West Photococket and the crash was terrible Engineer Clark, Fireran Brown and Brakeman Donahue jumped, but it was too late. The first and last-named were caught and fatally lojured, both dying after having been brought to this city. All the other trainmen jumped and escaped with slight injuries. Both engines were demolished.

DRY GOODS MARKET esports of the Week at New York NLW YORE, July 27 The imports of iry goods at New York for the week were \$1,696,137; amount marketed, \$1,-102,557. Corresponding week of 1893, imports were \$2,880.574; amount keted, \$2,337,202.

COLLISION OF MOATS. One of Which Was Immediately

WATFRYOWS, N Y, July 27 As the excursion steamer Islander and the stamm yath Alert were running toward the dock at Frontenae, Round Island, on the St Lawrence, this morning the Islander collided with the Alert, inflicting demages upon the latter which sunk the vacht almost immediately.

Moure, at the Fruit Rines Growing Desperate

Moure, Ala, July 27 Father Beaudiquin, who was sent by Gov Jones to the Fratt mines to investigate the cause of the trouble, especially among the one hundred Freuch miners there, reports that the fact that negroes with Whichesters are on guard there will probably lead to bloodshed. The French and litch nulners told him that the company charged so much at the company charged so much at the ramilles were to need. This led to the strike and the presence of armed negroes has made the strikers desperate Father Beaufliquin says his countrymen would return to France if they could obtain their passage mone;

BUSITESS TROUBLES

TORONTO, July 27 The Williams Green & Rome Collar and Shirt Company has assigned. The assits and lib-bilities which will be heavy, are about equal. The business was one of the

Our special correspondent at Martha e Giove, Fryeburg, writes under date of Wednesday Fryeburg greeted the Chantauquans yesterday with the usua, downpour, but in spite of the rain and damn, the number registered at the Grove House exacteded in numbers those of the past year, and to-day the beauti ful grove, flooded with sunshin, and fresh for its recent bath, is all alive with bright-faced visitors, most of whom are intending to spend the entire assation.

The programme for this year is as usual, a feast of fut things, and besides the lectures and concerts, several new features thirty fer are to be introduced that cannot fail to by the Pr Prof Forbes, besides the lossons fo mineralogy that were found so delight-ful at the last session, will have a class in practical astronomy, teaching ble pupils by direct study of the Heavens in the evening, beginning with the beautifil constellation of the "Scorpion" and

advancing to others less commonly known by the ordinary student Mrs Kate Wilson, of Worcester, Mass, will continue her always interesting studies in botany; Prof Robinson, assisted by Miss Sleeper, of Franklin, N H, will give lessons in gymnastics, and Miss Treedwell, of Portland, will have a class in physical culture Miss Barrons presides as usual over the Cooking De-partment, and Prof Bowdoln has the musical department in charge, with such able assistants that the success in that line is assured beforehand German and French are taught by competent teach Luw, as taught by Mrs E H Osgood, of Portland, President of the Maine Federation of Women's Clubs, are a new departure from the long travelled high ways in which women have for centuries walked, and caught fall to be of the

greatest interest and profit to all who are privileged to attend them. The Rev. Mr Morgan, of Skowbegan, has the Sunday Thool department in charge, and will evidently make it as ever, one of the popular features of the

It is a matter of intense gratification to the managers and their friends that the purchase of the grounds by the Maine Chantauqua Jalon is at last fairly concluded-three-fourths of the sur having aiready been paid, and nearly ail of the remaining sum being covered by subscriptions from reliable sources. It is an excellent investment and the managers are to be congratulated for the business shrewdness and pereistency shown by them in securing so valuable a property to the Union on such reason-

able terms. Their sugacity is also shown in placing before their guests, "good wine in the beginning," as the first lecture of the course, this aftergoon, by that prime favorite with Majne audiences, Mrs. Mary A. Livermo Mrs. Livermore lectured to a crowde

anditorium upon the upbuilding of that great Queen City of the West, Chicago whose name in the Indian tongue algui fies "Onlon"—so called from the great number of wild leaks found in its primi tivo swamps. In her own laim able fashion she des-

eribed the discovery of that region by the gallant French discoverer, La Salle, who was so impressed by the wonderful capabilities of the situation in the way of commerce and defendbility, that, had it not been for his untimely death, he would, without doubt, have étarted a settlement here as was his original intention?

Touching upon the terrible massacre of the citizens by Indians in the employ of the English in 1812, the speaker went on to tell of the trade made with the Indian armies; the war with Black Hawk, in which Abraham Lingoln won his spura; its phenomenal growth be tween '50 and '60; and its marvellous res urrection after the terrible fire that is yet fresh in the memories of the people of to-day. V .Th conclude, Mrs. Livermord, after a

brief reference to the riotous scenes lately transpiring in that city, declared her firm belief in the vitimate triumph of right, even in that wicked city, for God rules, and, after such wonderful deliverances, it is not possible that it is destined to become the den of wicked ness that pessimistic observers have pre-

Conspirators Arrested and Ring leader Shot to Death.

NEW YORK July 2" The steamer baginaw from San Domingo brings news of a plot to mease-daste President Heureaux, of San Domingo by a party of young men I take may that the conspirators were not sufficiently custous about their plans and the President was fully informed of the darger meanting him before the arrangements were completed, and put the medium; of the law in operation against them and all of the conspirators were arrested and brought before the courts. The sing leader a young man named Bobailli, was condeared to death and was shot and as Heureaux considered the example sufficient the other ten were set at liberty. It is said that the plot was betrived by indiscreet fairnds and that the President based on the poster in regard to it since last Junusty. since last Junuary

Senate and the Tariff

For the past few days the mocking irds have been having a merry time in the Senate but the cuckoos healty resumed business at the old stand Sena-for Vilus, who was first brought into put he notice during Cleveland a former administration, was the man selected to d fend his master. In the course of his thi only traise of the President, in which clunges of duplicity, the Wisconsin Senator incidentally stated in effect that the I resident would rather see all third legelition Infithan to have the Senate bill the sites being that if a deadlock n are butween the two honger the 1990e will be kert alive and used in behalf of a third ferm for Cheveland. At the conusion of his speech Mr. Vilas withdrew hermotion to instruct the confeces of the Senate to recede from their position differential duty on sugar which is practually a gift to the trust.

letter to Mr. Wilson, had beed overchelmingly defeated Senator Washburn ground the discarded Vilus motion on the differential duty. Mr. Gray mised a and advice point of order against the motion conending that a conference committee conrot be instructed. This point of order was pending when the Senate adjourned Phuisday On Friday when the minft the tion came up as the regular order, Smitof Harris, who was in the chale in the absence of the Vice-President, sustained the position taken by Mr. Criv_{t.} This ruling is contrary to all Cruy 1 this ruling is contrary to all precedent, and it is a fact that Mic Gray who raised the point of order has quite recently potento instruct a conforcace committed. This backing and filling illustrates the hopeices confusion into which the Diametratic party has been precipitated by the tariff high: The significant feature, however, was

the chiseness of the vote on these test. a ations. The append from the decision of the chair failed on a tie vote which stood vois 32 pays 32. Then came the question of allowing the decision of the thru to stand and the motion failed, the ote bring a tie as before the vote then recurred on Mr. Washburn's motion to trike out the differential duty, which also fulled on a tie of 12 to 12 shalls the bill was sent back to the

conference without instructions by a vivee vote 11 is close vote indicities that if the Heave insists upon any considerate change in the bill there will be no injust a legislation at this session The clances are however that; some mnor thurges may be made with view of letting the House back down as easily as pessible and concur with the Senate What the President will do under these creumstatees is the problem. If the House now descrip him on the line of iny seemingly peamble compromise as has thrust himself as rebut fulor into his fight by prictically assuming to I is letter be burned all his bridges | The further thevelopments in this great pom crate quarrel will be awared with in terest. In the meantime the Republicans in the sengte should feel encouraged in their light for American enterprise and Uncritin labor. They will doubtless watch avery move on the part of the Democrats and unprove every opporta is to hill the foll and save the counhe mid it be possible to send out the word that through their efforts the Dem etratic hariff monetresity had falled there will be rejoleting in every State in

The People Understand When the editor of the New York Healt gris right down to business he can give the blatherslate Johann Most points in the art of preaching anarchy lodeed the red mouthed aparchist is not in twith the Herital man when the latter is at concert pitch. The only real difference between the two is that the " II : Iii k nows better and is therefore not to titled to so much respect as its col-I ague id the infamons work of arousing cless prejudice. Here is a choice ex ract from the columns of Thursdays The country now has before its eye

The country now has before its eyes a colossal object lesson. Since 1828 (excepting the years from 47 to 61) every class of dur people have been secretly and yet enormously taxed by an insidence, and the secret of the property of the years and princes become of billions of dollars (not one cent of which ever went to the support of the government) have been clandestinely drained from the American people into the pockets of their "protected" fords and masters. The wool, cotton and silk, fron, steel and sugar manufacturers have thus become multi-millionaires. They own the nation, dictating infamous hawsat. Washington, reversing the edicts of parties and Presudents, and, far outdoing the old Southern slaveholder, they assert in the very Senate chamber that seventy million. American slaves must bow and bare their backs to whatever burden or whatever lash their overseers choose to lay on the internal of the manufacturing clique over the rights and liberties of the whole American people that provinces with a reverse.

It seems incomprehensible that a great leading formed it with a stream to the serverse.

It seems incomprehensible that a great leading journal in this enlightened age should be willing to sink low enough to print such atuff as this, but the Herald's anarchist editor does not hesitate to un-furl the red flag. The people have had an object lesson and as a result such demagor cal talk us this will got have the effect intended. They listened to it in 1802, when the country was prospering other pation on the face of the globe had ever prospered, and all on account of Republican legislation, and are to-day reaping the legislation are to-day reaping the legitimate fruits of their felly. It is not alone the manufac their rolly. It is not moth a "reverse," but the entire country. The presperty of 1802 has disuppeared. Business stagnation prevails in every State in the Union. Thousands of people are in actual want by reason of enforced idlener while other thousands are exist out a more existence on the reduced wages Business Strictly Confidential

And this blight has been produced by a year and a half of Democratic rule. The people now understand this matter as never before and are in no mood to listen to demagogical harangues like that in the *Herald*. They appreciate that legislation calculated to encourage the upbuilding of diversified industry neans employment at living wages. That when the manufacturers, who are the fountin head of employment, he prosperous the people reap their liarvest If the decision rested in their hands to-day how quickly they would throw down the Democratic aggregation now enguged in blackening each other's characters while the country is suffering from the effects of the purpose to waps out the protective tarift, a purpose which the Democrats themselves have been forced to check owing to the directal resuits that have already followed their tariff tinkering schemes. The work will begin this fail, however, when even the Democrats in private conversation conccde that the people will restore the House to Republican control, and wal be completed in 1896 when a great popular house cleaning will take place in the executive mansion

Schate bill, there is a most extraordinary assertion. Mr. Ilarris had charge of the

dent, says Senator Harris, since these concessions were agreed to and before the passage of the bill, and one interview after the bill had passed and gone the really said nothing that linded to most distinct understaiding was that the force of Senator (primary with the President regregated, even as I said the force of Senator (primary the president regretation and the president senator). regict the necessity of miking such concessions, he thought it wise to puss the hill, and so advised, as it materially reduced the enter of their taxation in

posed by the existing law At the time of these interviews be tween Senator Harris and President Cleveland, coal and iron ore were taxed as the bill stood. It was with a tax imposted on these raw materials that Mr (h veland gave Senttor Harris mos distinctly to understand that he regarded and desirable

That, however, is not the most importcontained ring a motion to testore and suddiern to the free left the very thing the President contended for, in his lefter to Mr. Wilson, had a conversation with the President since the bill went to equipment, and he

But at the time of this jast interview when S nator . Harris still understood Mr. Cleveland as favoring the enactment of the bill taxed from ore and taxed coal is I ther to Mr. Wilson denouncing the Democrati Senators for voting a tax on containt iron orr and declaring that no tailff measure can accord with Domo-

Mr Wilson bears the date of July 2 Is the date of the letter n he, or is Mr. Chveland guilty of shogunparalleled duplicity which senator thereis statement, in view of these chemistarices, attributes to him?

burn's motion to strike out the duty of one eight differential in the sugar sched-ule and the year and mays were again or-AT FEVER HEAT.

the and the yeas and mays were again ordered

The vote resulted yeas 32, mays 32, and
the motion was not agreed to.

Mr. Gray's original motion to best on
the amendments and to agree to the further conference requested by the House
was filen agreed to without division.

The President pro tem thes announced
the conferces. They are the same as before, Messrs. Vourhees, Harris, Vest and
Jones, (Democrates); Sherman, Allison
and Aldrich, (Republicans).

There was much confusion owing to
the exchange of congratulations among
the Democrate that the crisis had been
so happily passed! Intense Excitement Over The War in Corea.

Uprising of the People Expected To Occur at any Moment.

Great Energy Displayed in Sending Troops to Corea.

Lives of Japanese Residents in Danger from Chinese Fanatics.

SHANGHAI, July 27 The Chinese transports sunk off the Corean coast by Japanese gundats belonged to the fleet of bleven steamers which sailed from Taku July 20, with 12,000 troops The fleet left Taku under eacort of gundants The majority of transports proceeded slowly with gundonst, while the faster ones steamed at full speed so as to land their troops as soon as possible On the transports which arrived flet at the Corgan coast were a hundred soldiers Most of the force, however, consisted of coalies with inferior freatmes or merely bows and ar-

The attack upon the steamers by the Japanese, last Wednesday is described in a despatch received this evening from

a despatch received this evening from Nagasaki.
Firing was begun by the Japanese but tery on store, while the Chinese officers were trying to debark their men from the first stemmer. The Japanese cruiser then steamed up and opened fire on all the transports, which were lying to waiting to discharge.

The Chinese were unable to make any efficiency resistance. They were thrown into great confusion and nuny imped overbigard to escape the hot fire, under which transports suffered severely.

Thursday injeht's train. Forepaugh's advertising car No. 2 is at the station. The country and rail, roads will be extensively billed for the second time for the appearance of the show in his city on Wednesday, Aug. 8. J H. Bailey, who is half owner of the Barnum & Bailey show, is sole owner of the Forepaugh shows. Mr. T. McCaddon, manager of the Ferepaugh show, k a brother-in-law of J. H. Balley. The Barnun and Bailey shows and the Fore paugh's show have been East this seasou, something they have never before

done. POREPAUGE'S CERCUS Will be in Manyer August Sth Few sayings are better than this: Hew

close to the line, let the ohips fall where they may—a popular axiom in former days. You remember when you read it in your text book at school, do you not? Well, it is the same with public enter-prises as it is with individuals. Some of them recognize that fact and govern themselves accordingly. Notably among the great public institutions that act upon that plan is the Adam Forepaugh hows. They hew close to the line in

their udvertising.
They do not believe that it is necessary to advertise a lot of things they do not save to induce the public to patronize them. For the last thirty years they have been visiting every city and town in the United States and Canada and they have established a reputation for truthwell in hand. They advertise only what they exhibit, and the public has always found that the shows were not only as large as they advertised, but they were really larger than any one could see at one performance.

Now they are advertising that they are larger and better in everything that makes up a ctrous and menagerie of the on the dollar. See what he says and offers to-day.

It is bless grade, and that they have sleet so arranged their programme that the so arranged their programme that the whole of it may be seen and enjoyed by averybody. This will be welcome nows to the thousands who have he totofore found their immensity to be their only fault. They will be here August 8th and the public that wants to enjoy a first class show will have the only opportunity to do so when they are here.

On the dollar. See what he says and offers to-day. J. Waterman announces an unprecedence is the control of the subject to the thousands who have the only on the says and offers to-day. J. Waterman announces an unprecedence is the theorem and the foundation of the says and offers to-day.

GOVERNOR'S COUNCILLORS

Madawaska. Good Results Being Attained in

The Schools,

The party composed of the committee on State lands, of the Governor's Council, Hon. E. D. Clark, of Waldebore; Hon. Fred Atwood, of Winterport, and Hon. Waldo Pettengill, of Rumford Falls, and the committee on State benrsciaries, Hon. C. A. Hurrington, of Norridgewook and Ron. L G Downes, of Calils; Mrs. Atwood, Mrs. Harrington, Mrs. Clark, Mrs. Pettengill, Mrs. M. F. King, Miss King, of Portland, Mrs. E.A. Oakes and Mrs. L. A Winchenbaugh, of Waldoboro, who left this city last Saturday for Northern Maine, returned last evening and passed the night at the Bungor The committee on State lands went to

ion of some French settlement cases and be committee on State beneficiaries to troostook to settle some pauper oases A WHIG reporter called at the hotel ast evening and had a pleasant conversation with Mr Atwood concerning the The party left here Saturday morning

Madawaska to make an official investiga-

and went to Caribou where they stopped at the Vaughn Hotel.

Sunday Councillor Pettengill attended the Universalist church, Councillor Atwood and wife and Mrs. King and Miss King the Methodist and the balance of the party the Eaptist church Monday bey took carriages for Fort Kent, stopping at New Canada on State pauper business At Head Brook they found a party of thirty or forty ladies and genlemen from Curibou who had preceded bem and prepared an claborate piente diancr builde the read After passing two hours there they

went to Fort Kent, stopping at the dormtory of the training school This building was constructed last year and is a peat, substantial and roomy structure well adapted to the purpose for which it is used. They visited the village school of Miss Murquis, who is a graduate of the training school and were much inter eated Miss Marquis is French, as are her scholars and site is an excellen ie icher. The pupils show the good results of her instruction

From there the party went to St Francis across the St John river and took dinner at Connors in New Brons wick. They then returned to Fort Kent Mr Cyr, who is principal of the training school, is a graduate of the Maine State College and is very enthusiastic in hi work of educating the French as teachers Tuesday evening a reception was ten dered them and about forty of the citi zens of I ort Kent were present

Among those present were Mr and Mrs Page, Mr and Mrs Mallett, Mrs quis

The Prench and English songs sung by Miss Marquis were much enjoyed The contra dance, with piano music by Mrs Bradhury, was a very pleasant fea-ture of the evening Tee cream and coffee were served by the Misses Cyr Wednesday morning the party called

on Maj Dickey at his pleasant residence, formerly the United States bar racks and the quarters of Lieutenants (afterwards Generals) Hancock and Mc Clellan, at the time of the Aroostoel War They visited the fort and then left for Frenchville where they met some 30 or 40 of the French settlers to adjust their claims, while part of the Council went to Long Pond, five miles distint, still the property of the State, with a view of disposing of the property to 6ettlers

There were 670 squatter claims and all but 50 have been settled. A majority of these will be arranged within the nex two or three months, as the committee propose to have the matter settled before the close of the year. Land Agent Oak has been very efficient in dealing with the cases

The State virtually has no land for settling purposes and in brder to develope Northern Maine as its soil and facilities warrant some nian should be devised. The proprietors do not care to paluted and recarpeted. The basement soll small lots as it increases the danger of fires. Many of them say that should the State buy to dispose of the land for settling purposes, prices would be made with a view of assisting in the development of Aroostook.

At Frenchville the party visited the school taught by Mr. Cyr. a graduate of the training school The French teach ers are teaching their scholars, the Engish lunguage and excellent progress i made. They read and speak English well and only speak French at home, se they obtain a knowledge of both lar guages. The American flag waves over each school and the scholars sing patt lot ic American songs. The parents are delighted with the instruction their children receive. Miss Nowland is

one of the very competent teachers Mr. Plkor, the chairman of the hoard selectmen of Frenchville, is an Arcawoman there of 46 years is the mother of O children, all of whom are living. A eople of the town, who are no terested in the schools Mrs. Willett. wife of the proprietor of the hotel, did

Dinner was taken ut Frenchville and the party then drove to St David, crossed the river and passed the night at Edmunston. Some of them took an early start the next morning and drov to Grand Falls and the others went to St, Bazil visiting the convent: They left Edmunston at 11 a. n. by train and took supper at Newburgh.

They arrived at Houlton at 10 P. M. and stopped at the Snell House. Yester-day morning Hon. Liewellyn Powers and Senator Shaw gave the party an enjoyable drive about the thriving town and Senator and Mrs. Shaw and took dinner with them. They left Houl-Aronstook train and arrived in Bango

wives leave on this morning's train on their return and Councillor Atwood and wife, Mrs. King and Miss King leave on the steamer Rockland. Councillor Petiengill hegins next week the supervision of the constauction of an extension of the Portland & Rumford

GOOD WILL MORE.

of the encampment seems better than the preceding, furnishing comething new and fresh every time. Mr. Hinckle proves limself a remarkable manager in every way. His choice of apeakers and arrangement of the programme give good evidence that he knows men and under stands the real need of boy life The morning hour of the second day was un ler the direction of Secretary R 🔌 Jor dan, whose work for young men and boys in the city of Bangor commends him to the Christian workers every where. He gave a bright, cheering, helpful talk which would help any box to a better life. Mr Jordan has received

very interesting and instructive talk on shells. Conchology appears to have been more than a "side-study" for Mr Winkley, and it has taken strong hold of him. He has a fine collection of specimens, and Mr Winkley's work during the encampment promises great profit to all permitted to attend his lectures. Thursday evening was one not soon to be forgotten by any of the large audience which crowded the tent. Proof was given that this world is gotting smaller every day, and that those who used to seem far away are now among our near neighbors Personal letters from friends of the boys at Good Will Farm have been recently received, and several of these were read

mali, Kioto, Japan, Callao, Peru, Yoko-hams, Japan, Rangoon Burmah, McAll Mission, Paris, Inkunga, Africa, Orissa, India, Huchau, China These words of greeting from all parts of the world were received with great interest and the reading of the letters made a very unique feature in the exercises Nearly all of the letters were written by those who have been hove and girls in Maine, and this fact deepened the interest

The interest shown in the athletic sports is commendable Base ball, basket ball, tennis and swimming have their proper places, and the boys take hold worked and each man was carefully inwith great engerness Mutch games of ball with visiting teams are already ar- arrangements were carried out success

Vaterville and several of the surrounding towns were on the grounds on Thursday. Among those who have more recently registered are Rev C M kmery and wife, of South Norridgework Miss It A Purington, Topsham, Rev C B Harden, lefferson, Harold Sawye and S B. Thompson, of Bangor, with a large number of others from different parts of the State New tents are being pitched every day and many are knowing the joys without the secrows of

WILDLY EXCITING

Was the Glerious Ball Game a Manlewood Friday

Bangors Win an Up Hill Centest by Cine Team Work,

Over eight hundred persons yelled themselves hoarse yesterday afternoon at Maplewood Park. That ras the attendance and we don't believe that any one of that number refrained from demon strations of a vocal nature at the excit ing stages of the game. For seven in nings the Portlands shut out the Bangors by sharp playing, while they had been enabled to score two runs by piecemeal It did look very dublous for us, for a fact, even at the beginning of the 9th for both teams were playing magnificent ball and it seemed as though the game was

well illustrated at the conclusion of the 9th and the men were given an object lesson in the old snying "Never say die Gray pitched the game of his life jesterday, only two hite being made off him Only two wire made by the Pall Rivers the day before in live innings, giving Gray the remarkable record of four hits made off him in il innings I we errors were made by the Bangors, one a wild throw by McGlone and the other a mult of a fly by Moore which was entirely ex-

Duady made a fluc running catch as did White Slattery did great work at first and Moore at accord Burns made a brilliant stop of a grounder by Mc-Glone, spoiling the latter of a base but

bedlam reigned, everybody felling at the Umpire Long a vince was drowned and the decisions could be he heard anywhere. The visitors did not get rattled however, and the Bangor won the game out by splendid term work and perseverence which was high ly gratifying and commendable In the last two unlags signals were

structed as to what he should do and all ranged for, to be played this week and! fully Propally few of the castal observers of the game were aware of how much there was beneath the surface, the mutual understanding in the last of the game There are more flut points to base ball than two-thirds of the specia tors are aware Up to the 8th the home team had been

scored. Then it was signified that I iz maurice should steal second so Slattery snould attempt to get home maurice did his share and tried to get them to run him between bases but he had better luck still and flow, into the I Griffin pastor—10.30 worship with second bag by poor work of Smith tat Slattery thought he gouldn't score and school, 7.30 evening service with special Slattery thought he couldn't score and didnetry to come home. Deady was

Then such a pandemonium McGlone did the correct thing and tapped an easy grounder to Slater. While coring while the crowd west wild This tied the score and the world looked brighter, decidedly But the end was not yet "Chummy' Gray who had struck out the two previous times at bar, ambled up to the plate with blood in his eye and a hard bat in his hand. He se ected a good one and made a beautiful oase hit, on which Moore scored from

Sharrott wanted to make the lend more than one but only popped up a foul fly which Mahoney cuptured—hree out Wasn't It great? Then we were so happy, we were wenk from shouting and ancing about but we were joyful the visitors' half of the 9th Madden went out Moore to Sluttery Burns sent a fly to Sharrott and C Smith ended the agony

Then a very crazy and happy crowd made a rush for the street cars and home to supper and probably each member of the family of each spectator was told every minute detail of how the game was won before five minutes after arriving home People will not get over talking over that came for weeks. Well, there are lots more good games in prospect And here is the score

Bangers AB

The Bangor management are trying to

land. He would be a great addition to any team.

An attempt was made last evening to secure the Serrentes for a game here with the Eangers on Monday or Tuesday next but Mr. J. E. Ingersoll telephoned us that he did not expect his toam to ar rive until Wednesday. The Bangor am

ateur team, which plays the Sorrento every year, will go there soon to try conclusions and the Banger boys intend to wing took As Mausger Garrity of the Portlands

tion by giving the Portlands balf of the gross receipts of the game yesterday and allowing the visitors to come here on the 305 r M train and the game to be called at 3 30 a clock. As this was a great accommodation to the Portlands and also gave them quite an extra sum the directors feel that they have paid off all indebtedness and hereafter all games with the Portlands and all other teams will be called at 3 p clock An effort was made to have to-day a game with the Portlands transferred to this city but the Hortlands thought they could make

more money at home The Bangor management would not agric to fransfer to-morrow a gime to Portland They will, however, give half the gate receipts which it is hoped, will amount to the \$60 or more that it costs to go their from Portland to play one game - lertland Arques Portland s hopes were realized for they took away over \$32 in their Inside pockets last right

The Burgors have won t of the list " games played Not too had Kerr it ıp, bojs

New arrivals are constantly swelling the jolly Chatsuqua band already on the ground at Freyening The only criticals which can possibly be made is chartened things on their program to be taken in and well digested in a three weeks' out ing. Under the skilful management of Roy George D. Lindsay, the present session is well hamshed and all the complex machinery is running without the least friction. The morning hours are given to music, physical culture, German, betany, mineralogy and parliamentary law? The accomplished Miss Annie B. Parkor, of Kingston, Mass., has been seated to teach the French class. I he World's Parliament of Religions' was the subject of Mrs. Livermore second iecture. She gave a brief history of the inception of that famous congress with sketches of leading participants and the grand and brodening effect it had upon those mingling with its proceeding. All were sarprised at the common points found in the world's great religions. Dr. J. J. J. ewis gave his illustrated lecture. Increase yearing upon "The Canadian Rockies," which was listened to with great interest by a large audience.

A gentleman whose nome is in a distant city, but who owns a summer cottage in a town near Belfast, tells a good star of Yankee enterprise. Last winter while travelling in the Holy Land, his whole soul intent on the sublime and whole soul intent on the subme and sacred surroundings, he was suddenly brought down to earth by the receipt of a letter from one of his Waldo county neighbors, offering to sell him fresh eggs and chickens, doing his next outing in Mane at the lowest market price

Lork John M Deering's undertaking rooms, Main street, Biddt ford, were damaged by fire Thursday night. The loss is \$1500, maured for \$1,000 P. P Morin's clothing store underneath was dreached His stock was valued at \$3,000, and was maured for \$2,000 The origin is unlikenewn.

the attention of the public. The state ment that this vessel had broken all pre-2105 knots for a period of four hours vas halled with delight by all admiters of the American navy, who eagerly read the voluminous accounts of the wild race against thue, and exulted over the fac that the United States now possesses the

that the United States now possesses the fastest was ship affort. Vivid descriptions appeared in the daily papers of the interest interest at the start, the hary morning, the smooth senths cheering of the crews on the stake-bonks, the flying spray, of how the pilot stood at the wheel with grim determination marked on his sun-bronoad visage, the turn at the other end of the course, the mad dash for home, the crossing of the finish line, the cheers of the specthous, the screeching of the steam stren, and many other includents of the race for the \$400,000 stakes.

Probatty somewhere in an obscure part of the article was the mere statement "it is calculated that the engine developed about 1000,000 and the state of the race for the article was the mere statement "it is calculated that the engine developed about 1000, born and many about 1000, born and the state of the race of the state of the race of the state of the st experienced workmen fater on Mr. Curv lutends to put in a fuel carrier and

making a tormen energy our random the lot.

When going in full power each one of these furnaces contains nearly a half ton for white hot coals. The total grade suitines is sated to be 1,500 square feet, which means that there is an area of fire equal to one grate 100 feet long and 15 leet wide. The rotaly heating surface.

that is, the surface of the bolkers which comes in contact with the flames—is nearly 50,000 square feet, or about one and one-eighth acres.

and one-eighth acres.

To feed all these furnaces, when the ship is being driven at full speak, requires at loast ton tons of coal an hour, or 240 tons a day, an amount sufficient to heat a block of the average size city houses for a whole year. Two keep the fires going at full blast requires the services of at least thirty men on each watch or period of four hours, when they are relieved by another set of men, so that for continuous running at least sixty firemen are necessary.

Childbirth Easy by preparing the system for parturi, "Labor." The puniful orded to childbirth is robbed of its terrors and the dangers thereof greatly lessened, to both mother and child. The period of confidement is also greatly shortened the mother strengthened and built up, and an abundant secretion of nourislament for the child promoted. Send to cents for a large. Robe, (168 pages), giving all particulars. Addicas. World Signature of Markets Robbits of Sandra or Sandra so that for continuous running at least sixty friemen are necessary.

From the foregoing some idea can be gained as to the magnifude of the power necessary to propel a first-class war vessel of modern construction at a rec-ord-breaking gait.
